Wind and Solar Energy

Performance and Reliability

Nicosia, Cyprus

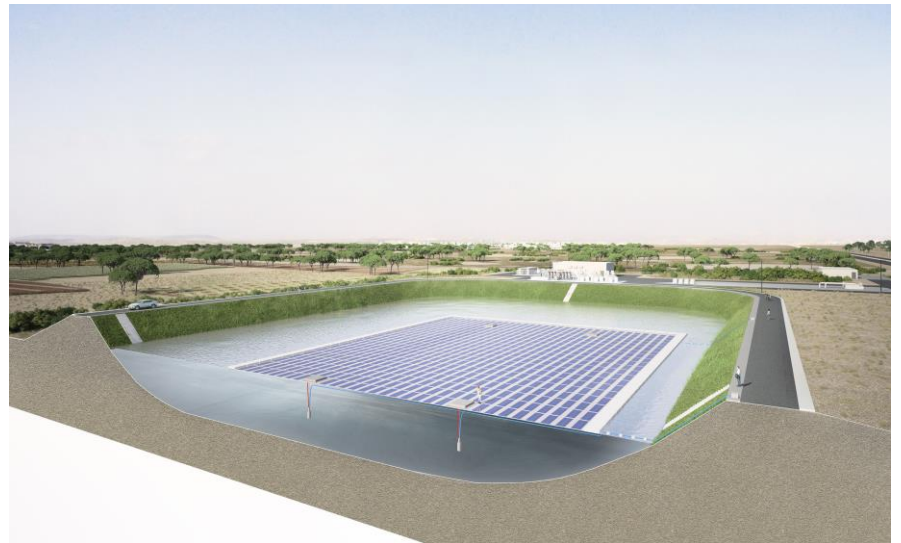

www.aerotricity.net

- › Aerotricity owns and is currently implementing a wind farm project with a total capacity around 10MW outside Nicosia-the Capital of Cyprus. Phase A of the wind farm (2,4MW) was completed in 2012 with 3 Wind Energy Converters (WEC) already installed and in operation. Phase B of the farm (additional 7,2MW) is planned to be implemented in late 2018.
- › Our vision is to establish ourselves as leaders in renewable energy projects in Cyprus and the wider Middle Eastern area.
- › Aerotricity consolidates and manages all aspects of project development including responsibility for resource assessment, site selection, permitting, interconnection, planning, construction, long-term operation as well as project reporting and administrative management, project financing, equity investment, community relations.
- › Aerotricity has exclusive distribution agreements with renown companies regarding renewable projects from Energy Storage Systems, large PV, Solar Floating Cover and Wind projects.
